## Somnoware Diagnostics 1.2502.0

### Product description

Somnoware Diagnostics is a cloud-based software that streamlines diagnostic testing workflows in the sleep and respiratory care industry. It orchestrates data flow between medical devices and unifies datasets within a single platform.

### What's new

- In **Reports > Invoice**, when users view a study invoice or video invoice, a message prompts them to click **Generate report** to display invoice data.
- When adding a new patient, users can now type a date when they tab into the date field.
- In the patient profile timeline and on the screen, fax status updates in real time to track progress.
- Updates to questionnaires:
  - Users can manually assign any questionnaire to a patient.
  - Questionnaires are listed alphabetically, with organization-level questionnaires first, followed by facility-level ones.
  - In the **Assign questionnaire** window, the **Select questionnaire** field now auto-completes as users type, making it easier to find questionnaires.
